

In Loving Memory
Dr. Stephen D. Craig M.D.

Dr. Stephen D. Craig, an Idaho native, was a board-certified Dermatologist who received his medical training at the University of Utah, graduating in the top 5% of his class. He was the Chief Resident during his dermatology residency at the Wake Forest School of Medicine in Winston-Salem, North Carolina. He served his country in the United States Air Force, achieving the rank of Major.

Dr. Craig founded North Idaho Dermatology in 1999 in Coeur d'Alene, Idaho to serve the communities of North Idaho and Eastern Washington. Dr. Craig cared deeply about his patients and loved serving them, always putting them first to ensure they received the best patient care possible. To his staff, he was lovingly known as the "Godfather" of North Idaho Dermatology.

Even on his days off, you would find him walking the halls of NID, talking and joking with every team member, ensuring that he had made a connection with each one of them. His influence and legacy will continue on through his selfless example of dedicated service to others. Dr. Craig cherished his family and leaves behind his wife Julie and four children and two grandchildren. He will be greatly missed by all who had the opportunity of knowing him.

Please join us in celebrating Dr. Craig's legacy and love by sharing any memory, impression or experience you had with Dr. Craig. These will be compiled in a book to help the Craig family at this difficult time.
